## Versatile Products

## NATURAL TILES

A-Class Surfaces International unveiled their stoneware brand 1<sup>st</sup> Tile. The collection of tiles under the brand boasts a blend of natural aesthetic and a subtle contemporary charm. It is designed with clay using Italian technology, thus enhancing its gleaming effect and appearance as well as providing it durability and corrosion resistance. The tiles are well-suited for both interior and external styling. They come in the size 2400x1200mm with a thickness of 9mm and are available in a variety of earthy tones.

## ELEGANT FAUCETS

Kerovit has introduced two new range of faucets. Designs include: Infinet, with rich details and soft curves of this faucet resembling dolphins; Trendy, with grooming takes the curve of the handle that takes inspiration from an oasis of clam and deliver a sensual design with strong visual impact firm appearance.
